

Implementation tips 04

Capacity building and interaction

Things to think about

- 1 - Who could act as a neutral moderator to mediate the interaction between young people and institutional actors in your location? A research institute? A non-governmental organization? A professional mediator?
- 2 - Is there any young person in the chosen moderating organization who could act as a "youngster facilitator"?
- 3 - How could you increase the skills of both the participating young people and the institutional actors? Should you involve external partners to provide the right kind of support for capacity building?
